

some people say that there is no water to use in sanitary latrine. Now you have to come up with solutions.

Change may be slow. However in every community there are some innovators who are open to new ideas. You need to encourage them . Sometimes new generation takes up changes faster than old people. Change is often slow. People cannot give up traditions easily since they find it easy to work with. New things need adjustment.

At the end sum up the discussion and what was decided in this meeting.

### Think about following :

- Some people dominate in group meetings and while some do not speak at all. What should be done?
- I lack confidence while speaking in a group. What should be done?
