

Cluster Level

At the cluster level there is a Primary Health Centre (PHC). It provides the same health services as that provided by the Sub-Centre, alongwith the following services:

- First aid and appropriate management for injuries and accidents and stabilisation of the patient before referral/discharge.

Reproductive Child Health (RCH) related services

- 24-hour services for both normal and assisted deliveries. First aid and referral for serious obstetric emergencies.
- Newborn care.
- Emergency care of sick children.
- Integrated management of neonatal and childhood illnesses (IMNCI)
- Spacing and permanent methods of family planning and follow-up
- Abortion services limited to counselling and early term Medical Termination of Pregnancy (MTP) using Manual Vacuum Aspiration (MVA) technique (Wherever trained personnel and facility exist).

National Health Programmes

- Diagnosis and treatment of RTI/STIs, and of major illnesses targeted under the National Health Programmes-Tuberculosis (TB), Blindness, Malaria, Microfilaria, Dengue and HIV screening.
- Routine lab tests related to blood sputum, urine, stool examination and for TB, Malaria, HIV, Typhoid, Syphilis, Reproductive Tract Infection, Sexually Transmitted Diseases (RTI/STDs).
- First-level action in unusual health events and out-break situations.
- Special operation camps for vasectomy, tubectomy, MTP, hydrocelectomy and cataract surgeries.
- Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homeopathy (AYUSH) treatment other than through Allopathic system, as per the local people's preference.
- Support to School Health Program through regular check-ups and appropriate treatment.
- Early detection of disabilities, initial intervention and referral.
- Drinking water tests and purification.
